

Capabilities Statement

Knowledge Relay is a leader in Information Technology services, data integration, reporting, and information process automation. We help clients get their applications working together to produce consistent, reliable, actionable information - and we automate the entire process, from data to decisions. Systems are synced; reports are created, all on an automated schedule or ad hoc.

As a Small Business, with over 30 years of industry leading expertise, Knowledge Relay is committed to excellence and creating innovative and flexible solutions for Federal and Private clients that help optimize operational efficiency.
